Reasons to feel good about recommending HP products

The HP system—designed together to work together

Every item featured in this guide offers the assurance of HP quality and reliability, as well as complete compatibility with HP peripherals. Only HP printing supplies are custom-engineered to interact precisely with HP printers, and only HP storage supplies are optimized for guaranteed compatibility with HP storage hardware. HP products are designed together to work together for optimum output and reliability.

Leading technology

HP is an industry leader in printing supplies innovations. HP smart printing technology includes such features as notification when supplies are low, drum adjustments for consistent quality output and cartridge usage data for budgeting and ordering needs. SureSupply takes it a step further—allowing your customers to link from a low-supply e-mail notification straight to a chosen reseller, to re-order supplies. HP continually strives to make the printing experience easier and more efficient.

Saving customers time and money

Every time a customer has to fix a paper jam, reprint a smeared document, or replace a cartridge that ran out of toner prematurely, it costs that customer time and money.

HP understands that many factors affect your customer's printing bottom line, such as downtime, quality, output and staff productivity. That's why HP printers and supplies are designed for maximum efficiency when used together.

Our guarantee

From LaserJet and inkjet print cartridges to special papers and recordable media, all HP supplies are guaranteed to work perfectly with HP peripherals to deliver outstanding results. Additionally, we guarantee that our HP LaserJet print cartridges will be free from defects until the original HP toner is depleted—no matter how long a customer has owned the cartridge. There are no surprises because HP stands proudly behind every one of its products.

Clear compatibility

The compatibility listings included in this guide make it easy to determine which products work best with each HP peripheral. You can be sure your customers are getting the right products for their needs. In addition, you can use the easy-to-reference charts to cross-sell your customers on other HP products they may need.

What makes hp supplies special?

Our system is the right solution for your customers

From input to output, HP printing supplies are part of the total printing solution. Why recommend HP? The reasons are as clear as the results—crisp, sharp documents that get your customers noticed.

Inkjet supplies let documents really stand out

With HP inkjet printing supplies, your customers get clear images, sharp documents, exciting photo-quality results and brilliant color that lets them stand out from the crowd! We design HP inkjet print cartridges to work together to get documents noticed. Whether your customers use HP deskjet supplies for everyday printing needs or HP designjet supplies for large-format printing, the results will let them make a clear, colorful and individual statement.

LaserJet supplies mean impressive results

With HP LaserJet printing supplies, your customers can expect crisp, sharp images every time. HP LaserJet printing supplies work precisely with the electro-photographic process in HP LaserJet printers. Whatever HP LaserJet printing supply you recommend, your customers can expect impressive documents every time.

Safe, reliable information storage and transmission

When your customers need to protect their valuable data, HP information storage supplies can help them back up, distribute and manage their files.

Keeping customers first—“HP Invent” packaging

What's new

Starting in 2000, HP introduced its new “HP Invent” packaging—designed to make it easier for customers. The look, tone and manner of “HP Invent” reshaped the words and images HP uses on everything from its logo to its advertising and marketing materials, packaging and Web sites. Throughout its implementation, “HP Invent” keeps your customers foremost in mind. The new HP image helps customers find exactly what they need easily and quickly. By making it easy for your customers to purchase HP printing supplies, HP helps them get the most from their HP printers.

Keeping it simple

“HP Invent” packaging is designed to help customers more easily and quickly select the correct supplies. To create the new selection system for ink cartridges, HP first divided its full line of inkjet cartridges into three categories and then assigned each a selection color. Only products with the same selection color are compatible. Then HP assigned each product a two- or three-digit selection number. Each selection number will always appear with its assigned selection color. The selection color and a two- or three-digit selection number appear prominently on the front of the package. Because the new packaging and selection system is easier for customers to understand, reseller employees will spend less time helping customers select ink supplies and restocking product returns. Customers who find what they’re looking for quickly and easily will be more inclined to return to you when they need replacements.

Selection number and color

The product name and two- or three-digit number are prominent in the upper left corner. The selection color in the background helps guide the selection process.

Printer compatibility

Just as on previous packages, compatible printer names are listed on the left side panel, reinforced with the selection color.

6-digit number

Customers can still reference the familiar 6-digit number for older products.

Ink color designation

Customers won't have to hunt for the ink color. It's spelled out and clearly shown as black, tri-color, cyan, magenta, yellow or photo!

Product photography

New photography illustrates the product inside the package. The product label reinforces the selection number and selection color of the print cartridge.

HP logo

The corporate logo stands out on a white background, highlighting the new brand identity.

Added security

In addition to the “HP Invent” look and feel, HP has added security features to its products—doubly ensuring that customers are getting genuine HP products. LaserJet packaging has been updated with similar selectability numbers and the consistent look and feel. Additional anti-counterfeiting features have been implemented, such as a tear-pull strip on the top of the box, a glued bottom and an HP logo seal that changes color from blue to green depending on the angle. When heat is applied to the seal by rubbing it, the ink temporarily fades, showing the words “HP Invent”.

The HP family of products

You've seen the difference throughout the years—a new, warmer HP image. As technology becomes part of daily life, as the lines between business and home blur, and as we seek deeper relationships with customers, it is time to take the hard edge off the terminology that surrounds the technology industry. HP's new brand identity rejuvenates HP, restoring the company to its roots as a collection of inventors who help their customers invent. The new brand is HP's promise to the world, affirming HP technology as creative, useful and accessible.

HP Inkjet

HP inkjet technology

HP cartridges and printheads

Just as important as the ink itself is the ink delivery system and HP's patented inkjet printhead, a device capable of producing and accurately placing thousands of dots of ink on paper surfaces each second. With continual advancements and smart thinking, HP is able to deliver impressive printouts every time.

Long-lasting color results

Auto hue correction—an HP Smart Print Supplies enhancement—ensures exceptional color accuracy every time. Inkjet drop information is recorded on the printhead's smart technology during manufacturing. This data is communicated to the printing system upon printhead installation, allowing ongoing adjustments to the amount of color being laid down for the truest, most consistent colors throughout the printhead's life.

Something you can count on

An electronic drop detect (EDD) sensor monitors printhead health and makes ongoing adjustments to maximize printhead life and ensure consistent print quality. The EDD sensor can also determine if a specific nozzle isn't firing, and it can move data to a healthy "partner" nozzle. These features offer the kind of reliability you can only get with HP Smart Print Supplies.

HP long-life printheads give you fast, reliable printing without image quality trade-offs.

The secret is in the inks

For breakthrough HP print quality, engineers carefully combine patented HP inks.

Perfect printouts every time

HP has developed ink formulation advancements to ensure outstanding printouts every time. The result is consistently higher quality documents over the life of the printing system. HP's ink chemists continue to develop patented formulas to achieve more precise dot placement, vivid colors, crisp color images with smooth gradations, blacks that come out sharp and dark, output that's permanent and durable, and reliable results on all kinds of paper.

Precise results

HP's exclusive K-fortification process alternately layers black ink and colors uniquely designed to react to each other. This forces black pigments to the paper surface for very precise results. HP Color Layering Technology—enabled by HP PhotoREt—delivers an incredibly broad color palette by combining up to 32 dots per individual color dot. This produces a staggering number of unique shades of color and stunning, realistic photo images.

Ink storage and delivery system

HP's ink storage and delivery systems are designed to tell you when you are running low on ink.

Consistent drop volume

The gravity-resistant back-pressure system in the printhead provides consistent drop volume and prevents leakage. Because the printhead ejects the ink straight down, leakage as well as print-quality degradation—and mess—would be a major concern without this back-pressure technology. Too much back-pressure, and the ink will not flow at all. Too little, and the ink will drool uncontrollably out of the nozzles and damage the printer.

Snapper ink delivery system

Selected HP inkjet printers feature a black and tri-color cartridge, separate from each of the four individual printheads. All components are easy to replace: Simply open the front door, press the release button and lift out the empty cartridge. Then insert the new cartridge or printhead and press down until it snaps into place. To further simplify installation, color-coding and icons on these supplies correspond with icon-driven HP Smart Print Supplies alerts.

HP ink cartridges contain patented ink ingredients you can't get anywhere else.

HP inkjet papers and transparencies technology

Why HP papers?

Printing on quality paper isn't just a nice idea anymore—it's a necessity. To make your business stand out against the competition, to catch the imagination of your customers and to make your home and family projects and photos the best they can be, printing on great paper is a must.

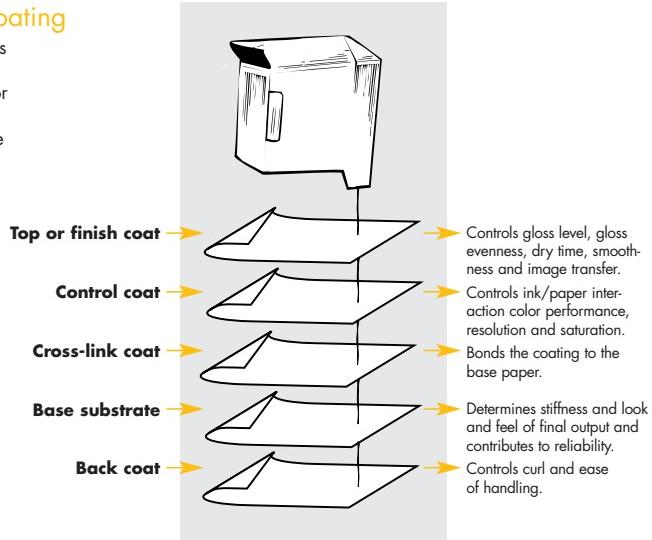

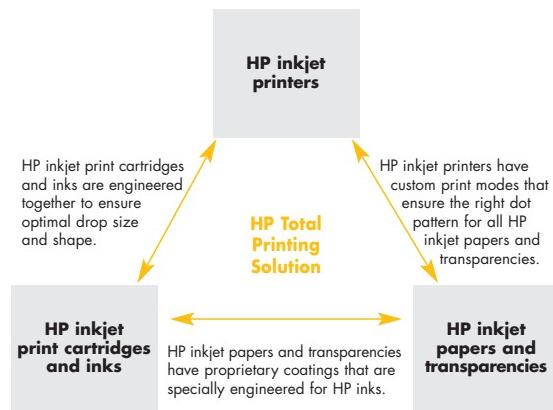

Whenever you use HP papers and transparencies with HP's patented coatings, you're assured of capturing exacting, true-to-life colors that will last. This means your printed photos will resist fading, your file copies of business documents will maintain their clarity and all your printed pieces will show their true colors for years to come.

HP papers and transparencies offer:

- HP patented coating.
- Outstanding print quality backed by years of exacting research, engineering and testing.
- A designed-together-to-work-together solution—HP printers, HP inks and HP papers combine to form a complete printing system.

The quality is in the HP coating

HP uses unique coatings in the layers of paper that receive the ink. These coatings are specifically designed for HP printers and inks to provide the best blend of printing basics, like the size and shape of the ink dots, how the ink penetrates the paper or moves around on it (we call this "migration"), how glossy the paper is or how fast the ink will fade (lightfastness is an important consideration). They also allow smooth, even ink coverage; help reduce the effects of moisture; and provide fast drying time.

HP digital-imaging technology

Digital imaging and HP supplies

Personal computers and printers are being used to create greeting cards, calendars, newsletters, business materials and much more. With digital imaging, many of these projects will include photos for which you'll want higher-quality color printing.

HP has taken the lead in meeting this need by advancing color photo printing. HP offers a wide range of premium papers, improved inks and printers designed specifically for outstanding photo printing. When you use HP printers, inks and papers, you get a complete printing system that has been designed and engineered to work together.

What's important for printing a digital photo?

- Microfine, precise ink drops to eliminate graininess.
- Smooth color transitions for realistic flesh tones and enhanced color gradations.
- A bright color gamut for vivid, sharp colors.
- Fade-resistant coated papers.

How do HP papers help produce the best digital-imaging solution?

HP papers achieve brilliant photo-quality printing through:

- Precise interaction with HP fast-drying inks.
- Reduced smearing and fading.
- Patented coatings.

For example, a paper's coating is the key to determining photo print quality. With HP coatings, the ink sits on the paper rather than fading into it, so that color ink remains brilliant and black ink remains rich and dark. Overall, the photo image is optimally displayed and the output is superior.

How do HP inks and ink cartridges help produce the best digital-imaging solution?

HP inks and ink cartridges achieve brilliant photo-quality printing through:

- More colors per dot.
- Drop volume control.
- Precise drop positioning.
- Enhanced ink/paper dot gain control.
- HP's exclusive Enhanced Color Layering Technology.

Using HP inks and print cartridges together with HP printers and HP papers will produce the high-quality photo printing you want and expect. By selecting genuine HP inkjet print cartridges, you receive the benefit of HP's investment in thermal inkjet technology.

What kinds of digital-imaging projects can be printed on an HP color printer?

HP offers a wide range of printing supplies for creating digital-imaging projects—from four kinds of greeting cards to do-it-yourself brochures, from T-shirts and banners to high-quality 9-mil HP Premium Plus Photo Papers.

More digital-imaging project ideas:

- Take photos of a family gathering and send everyone home with prints.
- Photograph your newborn and print your own birth announcements.
- Remove the dreaded red-eye effect from your angelic child's holiday photo, or add it to a Halloween picture for a spooky effect.
- Create a calendar of family photos to give as holiday gifts.
- Share your recipes on cards that include a picture of the finished product.
- Make banners for the school bake sale using the kids' drawings.
- Make labels for your home-canned goods.
- Use a team photo on T-shirts for your sports team.

HP inkjet print cartridge, printhead and ink cartridge product warranty information

HP inkjet print cartridge, printhead and ink cartridge limited warranty

All HP inkjet print cartridges, printheads, and ink cartridges are warranted to be free from defects in materials and workmanship during the warranty period.

Warranty period

The inkjet print cartridge, printhead and ink cartridge are warranted until the end-of-warranty date, which is printed on each product. Refer to the individual product inserts for the location of the end-of-warranty date.

HP inkjet cartridge, printhead and ink cartridge product warranty limitations

The warranty does not cover empty or refilled products, products that have been misused or tampered with, or products receiving a printer-generated expiration message.

Install-before date

HP inkjet print cartridges, printheads and ink cartridges feature an install-before date printed on the outside of the cartridge box. The product must be installed by this date for best printing results.

Returning an HP inkjet print cartridge, printhead or ink cartridge product

If a problem occurs with an HP inkjet print cartridge, printhead or ink cartridge, call the new voice-activated support line at 1-800-HPINVENT.

Using non-HP inkjet print cartridges, printheads and ink cartridges

If a non-HP inkjet print cartridge, printhead or ink cartridge is found to be the direct cause of printer failure or damage, HP will not cover the repair related to that non-HP product.

HP inkjet print cartridge, printhead and ink cartridge recovery program

HP is committed to providing environmental solutions for our inkjet products. Empty products can be returned to HP for recycling of materials and energy recovery. Call toll-free at 1-800-340-2445 or visit

www.hp.com/recycle to request a postage-paid envelope for returning empty inkjet print cartridges, printheads or ink cartridges.

In no event shall HP be liable for any incidental, consequential, special, indirect, punitive or exemplary damages or lost profits from any breach of these warranties or otherwise.

HP 10 ink cartridges

Smart ink cartridges deliver clear, sharp results without guesswork.

Target market

Business professionals who require high-quality color and fast, easy, reliable printing solutions.

Key selling points

- Smart cartridges provide ongoing status feedback for clear, sharp results without guesswork.
- Specially engineered HP dye-based color inks and pigmented black ink.
- Specially designed to work with HP inkjet specialty papers, transparencies and plain papers.
- Photo-perfect color images on HP Premium inkjet paper and HP Premium photo paper.
- Individually replaceable ink cartridges maximize ink efficiency.

HP Everyday papers

A full range of professional-quality paper designed for the way you work.

Target market

Homes to small offices to large corporations that need professional-quality printouts from their HP inkjet printers and other office equipment.

Key selling points

- Designed to work with HP inkjet printers, copiers, fax machines and other office equipment for clear, sharp, professional results every time.
- Compatible with all inkjet printers.

HP Office Paper

- Paper that is guaranteed to run in all HP office equipment with consistent quality from sheet to sheet.
- Reduces dust build-up in equipment.

HP Office Quickpack

- Paper for use in everyday office environments packaged in a convenient 2,500-sheet lightweight carton.
- No ream wrap, no waste, no loose sheets.

HP Office Recycled Paper

- Environmentally responsible, high-volume paper for everyday documents.
- All of the features of HP Office paper in a recycled sheet of 30 percent post-consumer content, which meets all U.S. government standards.

HP Business Copy Paper

- MBE paper solution from HP and South Coast Paper that is designed to run in all office equipment.
- Ideal for printers, copiers and fax machines.

HP Everyday Copy & Print Paper

- A versatile copy/print paper designed to work with HP printers, copiers, fax machines and other office equipment.
- Ideal for home office use at an affordable price.

HP Multipurpose Paper

- For top quality output from HP printers as well as copiers and fax machines.
- Brighter than other office papers with a smooth surface for sharper documents.

HP Printing Paper

- Heavier than copy paper, made for use in HP inkjet and LaserJet printers.
- Ideal paper for everyday office documents and presentations.

HP All-In-One Printing Paper

- The one paper engineered exclusively for use in HP inkjet and LaserJet all-in-one machines.
- Ideal paper for crisp, clean professional looking copies and documents.

HP Everyday Inkjet Paper

- An affordably priced everyday sheet engineered specifically for use in HP inkjet printers.
- Heavier than copy paper for less show-through.

HP Color Inkjet Paper

- High brightness factor helps ensure deeper blacks and brighter colors.
- Ideal for documents with lots of color.

HP Bright White Inkjet Paper

- An inkjet paper so white, color graphics pop off the page.
- Colors are up to 80% more resistant to runs or smears, even when exposed to water drips or spills.

New!

HP Everyday photo papers

A full range of photo-quality papers for all kinds of photo projects.

Target market

Ideal for everyday, e-mail and Internet photos.

Key selling points

HP Everyday Photo Paper, Semi-Gloss

- Glossy alternative to plain paper.
- Thicker and heavier than plain paper.
- Delivers vivid colors with a glossy finish.
- Unique HP back coating to prevent prints from sticking when stacked.

HP Everyday Photo Paper, Matte

- Everyday photo alternative to plain paper.
- Bright white for brilliant color images.
- Easy to use with double-sided finish for printing on front or back.
- Thicker than plain paper so colors don't shine through.
- Compatible with all inkjet printers.

New!

HP Premium Plus photo papers

A full range of photo-quality papers for all kinds of photo projects.

Target market

Ideal for high-resolution digital photography, family and important event photos.

Key selling points

- HP's best photo paper with exceptional fade resistance.
- Resists fading up to twice as long as the leading competitor with HP printers and HP inks.
- High-gloss finish maximizes color intensity.
- HP's thickest, heaviest photo paper—11.5 mil thick and 280 g/m².

HP Premium Plus Photo Paper, Glossy

- HP's best all-around photo paper with exceptional fade resistance.
- Resists fading for generations with HP printers and HP inks—twice as long as traditionally processed photos.

HP Premium Plus Photo Paper, Matte

- Provides the true look and feel of a traditional photo with a matte finish.
- Studio-quality, no-glare photos with a premium matte finish.

Banner Paper, 8.5" x 11"	C1820A	Works with all continuous feed capable inkjet printers

HP Designjet

HP designjet printing system: The complete solution

HP designjet large-format inkjet printers, UV and dye ink supplies, and printing material are engineered and tested together to ensure uncompromising image quality, consistency, performance, durability and value—every time.

HP large-format printing material

HP premium printing material

HP Premium Printing Material maximizes the capabilities of your HP designjet printer. The portfolio includes a variety of indoor and outdoor solutions—all competitively priced and many now universally compatible—that ensure uncompromising image quality, consistency, performance and durability.

HP basic printing material

HP Basic Printing Material is targeted at the cost-conscious customer who expects quality results at a lower price. HP Basic Printing Material is HP-tested to meet the everyday needs of graphics and technical professionals and is universally compatible with HP designjet printers and non-HP large-format printers.

Our guarantee

All HP Large-Format Printing Material is guaranteed. If customers are not satisfied with their product, they can contact their local HP reseller for a replacement or refund.

HP designjet ink supplies

Specially formulated HP designjet dye-based and UV pigment-based ink supplies bond perfectly with HP Large-Format Printing Material to produce uniform fills, sharply defined lines and crisp, clear text—across a wide range of indoor and outdoor durable printing applications. The latest HP designjet ink supplies feature HP Smart Print technology and modular ink-delivery systems—high-capacity ink cartridges and long-life printheads—to give you uncompromising image quality with superb printing economy.

Get great results every time you use HP designjet printers, UV and dye ink supplies and printing material.

See pages 8–11 for additional HP inkjet printing technology/warranty information.

Help your customers increase sales with the new HP designjet supplies Website.

Want to help your large-format print-for-pay customers grow their businesses? HP has the answer. Check out the new HP Large-Format Supplies Center at www.hp.com/go/designjet/supplies and help your customers expand their print offerings and increase sales.

HP offers one of the broadest graphics media portfolios in the large-format printing industry, as well as HP designjet dye and fade-resistant UV ink supplies. The new HP Large-Format Supplies Center Website will help your customers take full advantage of these products. Also included is an integrated solution of tools designed for PSPs and other print-for-pay professionals including step-by-step training, customizable marketing tools, application-specific project rooms, a return-on-investment (ROI) calculator, printing tips, tricks and more.

Visit the HP Large-Format Supplies Center now and help your customers today at www.hp.com/go/designjet/supplies.

HP 83 UV (outdoor) ink cartridges

Six UV-resistant ink colors deliver superior photo quality for durable production printing.

Target market

Print service providers, retailers, and graphics professionals who require fast, unattended printing of durable, lightfast, photo-quality output for images, signage, posters, presentations and fine-art reproduction.

Key selling points

- Designed for HP Designjet 5500 UV, 5500ps UV, 5000 UV and 5000ps UV printers.
- Six pigment-based ink colors produce durable, lightfast indoor and outdoor prints with ultimate photo quality and incredible colors.
- HP-engineered to work as a modular ink system with HP 83 UV printheads.
- High-capacity 680 ml ink cartridges.
- Built-in smart chips monitor ink levels and alert you when it's time to replace.
- Genuine HP-engineered ink supplies.
- Compatible with a wide variety of HP Large-Format Printing Materials.

¹ 2' x 3' prints on HP glossy media with 30% ink coverage in maximum quality mode

² 2' x 3' prints on HP coated paper with 30% ink coverage in productivity mode

HP 81 dye (indoor) printheads and printhead cleaners

Unrivaled print speeds with HP Jetexpress technology.

Target market

Print service providers, retailers, and graphics professionals who require fast, unattended printing of superior, photo-quality output for posters, signage, graphics, presentations, maps, renderings or drawings.

Key selling points

- Designed for HP Designjet 5500, 5500ps, 5000 and 5000ps printers.
- Advanced large-format printhead technology, ink cartridge technology and proprietary ink formulations ensure consistent print quality.
- HP-engineered to work as a modular ink system with HP 81 dye ink cartridges.
- Extra-wide HP 83 UV printhead features HP Jetexpress technology for unrivaled print speeds.
- Built-in smart chips monitor printhead operation and alert you when it's time to replace.
- Genuine HP-engineered ink supplies.
- Compatible with a wide variety of HP Large-Format Printing Materials.

HP Designjet 5500/5000 series dye & UV ink upgrade kits

Two printing solutions from one printer.

Target market

Print service providers, retailers and graphics professionals who have a wide variety of printing needs and applications.

Key selling points

- Designed for HP Designjet 5000/5000 UV Series printers: 5500/5500 UV, 5500ps/5500ps UV, 5000/5000 UV and 5000ps/5000ps UV printers.
- Upgrade kits enable you to switch back and forth between HP 81 dye indoor ink supplies and HP 83 UV outdoor ink supplies.
- No trade-offs with ink color gamuts or speed for image quality.
- Kits contain: Ink delivery tubes, printhead storage container, firmware CD and manual.
- Upgrade kits do not include ink cartridges or printheads/cleaners, which must be purchased separately.
- Genuine HP-engineered ink supplies.
- Compatible with a wide variety of HP Large-Format Printing Materials.

HP ink supplies for Designjet 800 series and 500 series printers

Smart, high-capacity ink cartridges deliver exceptional image and line quality.

Target market

Design and technical professionals who require fast, unattended printing of professional-quality signage, line drawings, renderings, maps and presentations.

Key selling points

- Achieve uncompromising image quality with HP Color Layering Technology.
- Print longer, with fewer supplies changes with smart, high-capacity ink cartridges from HP.
- Genuine HP-engineered ink supplies.
- Compatible with a wide variety of HP Large Format Printing Materials.

HP 10 Black Ink Cartridges (69 ml)

- Black cartridge works with HP Designjet 500, 500ps, 800 and 800ps wide-format printer.
- Smart cartridges provide ongoing status feedback for clear, sharp results without guesswork.

HP 82 Color Ink Cartridges (69 ml)

- Designed to work with HP Designjet 500, 500ps, 800, 800ps, 10ps, 20ps and 50ps printers.
- High-capacity 69 ml ink cartridges—double the amount of previous models—save time and money.

HP 11 Printheads

- Designed to work with HP Designjet 500, 500ps, 800, 800ps, 10ps, 20ps and 50ps printers.
- Wide printhead for extra-fast printing.

HP ink supplies for Designjet 100 printers

Precise ink placement ensures crisp, sharp lines and text.

Target market

Designed for technical and office professionals who need both standard-size and occasional large-format printing for text, drawings and presentations.

Key selling points

- Get consistently superb photo quality from specially formulated inks, the 1200 dpi writing system and HP Color Layering technology, which provides a wide color gamut, continuous tones and smooth color transitions.
- Modular, individually replaceable supplies make color cost effective.
- Precise ink placement ensures crisp, sharp lines and text.
- Smart printing features control the interaction between the printheads, ink cartridges and print media to optimize print quality.

HP 10 Black Ink Cartridges (69 ml)

- Designed to work with HP Designjet 100, 500, 500ps, 800 and 800ps wide-format printer.
- Offers crisp, sharp results, reliable performance and easy-to-use design.
- Advanced pigment-based black ink formulations produce the sharp, black text required for professional business results.
- Offers crisp, sharp results, reliable performance, and easy-to-use design.
- Smart cartridges provide ongoing status feedback for clear, sharp results without guesswork.

HP 11 Ink Cartridges (28 ml)

- Designed to work with HP Designjet 100, 120, 10ps, 20ps, 50ps, 800 and 500 Series printers.
- Specially engineered inks for photo-perfect color images.
- Convenient, individually replaceable color ink cartridges.

HP 11 Printheads

- Wide printhead for extra-fast printing.
- Designed to deliver high-speed black and color printing.
- Small drop volumes provide exceptional print quality.

HP dye ink supplies for Designjet 120, 10ps, 20ps and 50ps printers

HP's six-color modular dye ink delivery system produces the look and feel of offset prints.

Target market

Printer owners and operators, including graphic-arts professionals, marketing and in-house design departments, publishers, commercial printers, reproduction companies and pre-press houses.

Key selling points

- Get true, accurate colors and subtle shading through the six-color ink system, 2,400 dpi and four-picoliter drop size—reducing grain visibility and producing vibrant colors with smoother color transitions.
- Smart chips monitor ink supply and alert users when ink is low—eliminating guesswork and costly downtime.
- Dazzling color results on HP Designjet high-gloss, semi-gloss and matte proofing papers.
- Genuine HP-engineered ink supplies.

HP 84 Ink Cartridges (69 ml)

- Designed to work with HP Designjet 120, 10ps, 20ps and 50ps printers.
- Produces high-quality images with up to 2,400 dpi and four-picoliter ink drop size.
- Delivers smoother transitions and better color accuracy for photo-quality graphics with vibrant colors.
- Built-in Smart chips monitor ink supply and alert users when ink is low.

HP 11 Ink Cartridges (28 ml)

- Designed to work with HP Designjet 120, 10ps, 20ps and 50ps printers.

HP 82 Yellow Color Ink Cartridges (69 ml)

- Designed to work with HP Designjet 500, 500ps, 800, 800ps, 120, 10ps, 20ps and 50ps printers.
- Delivers fast printing automatically.
- Specially formulated inks achieve ultimate photo-quality images.
- Built-in smart chip monitors ink levels without guesswork.

HP 84 Printheads

- Designed to work with HP Designjet 120, 10ps, 20ps and 50ps printers.
- Up to 2,400 dpi and small four-picoliter ink drop sizes combine with HP Color Layering Technology to create high-resolution details for superior image quality.
- Wider print swath and 304 nozzles per printhead minimize wait time.
- Economical modular supplies mean an attractive cost per page.

HP 11 Printheads

- Designed to work with HP Designjet 500, 500ps, 800, 800ps, 120, 10ps, 20ps and 50ps printers.
- Small drop volumes provide exceptional print quality.
- Designed to provide high-speed printing.

HP bond and coated paper

A variety of economical papers—from basic universal and premium—that deliver quality results for everyday, indoor prints that are changed frequently. Bond, coated, heavyweight coated and super heavyweight coated paper are included in this category.

Target market

Ideal for any market producing everyday, short-term indoor prints such as working comps, design proofs, retail point-of-purchase signage and special event posters.

Key selling points

- Provides crisp lines, sharp black text and color-accurate output.
- Compatible with genuine HP ink supplies.

HP Basic Bond Paper¹

Applications: Posters and Presentations, POP and Retail Displays, Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- A low-cost paper that's perfect for black-and-white and color line drawings.
- Universally compatible with HP Designjet printers and non-HP large-format printers.

HP Bright White Inkjet Bond Paper

Applications: Posters and Presentations, POP and Retail Displays, Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Compatible with most HP Designjet printers.
- Brilliant, high-contrast surface makes black and color lines and text appear sharper.

HP Basic/Universal Coated Paper²

Applications: Posters and Presentations, POP and Retail Displays, Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Economical.
- Ideal for printing technical line drawings and mapping applications that will be frequently updated.
- Universally compatible with HP Designjet printers and non-HP large-format printers.

HP Coated Paper³

Applications: Posters and Presentations, POP and Retail Displays, Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Bright white, plus excellent indoor lightfastness for lasting, vivid color.
- Exceptional bleed control and high resolution for clear, sharp images.

HP Basic/Universal Heavyweight Coated Paper²

Applications: Posters and Presentations, POP and Retail Displays, Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- A low-cost way to print full-color graphics.
- Fast drying time and no glare.
- Universally compatible with HP Designjet printers and non-HP large-format printers.

HP Heavyweight Coated Paper

Applications: Posters and Presentations, POP and Retail Displays, Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Print it, mount it, laminate it, post it.
- Create durable, long-term applications and color-accurate everyday prints, working comps and design proofs with this economical paper.

HP Basic Super Heavyweight Coated Paper²

Applications: Posters and Presentations, POP and Retail Displays, Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Print low-cost, durable, full-color graphics.
- Extra paper thickness improves durability, handling and ink absorbency.
- Universally compatible with HP Designjet printers and non-HP large-format printers.

HP bond and coated paper (cont.)

HP Coloured Paper Yellow⁴

Applications: Posters and presentations and POP and retail displays.

- Matte finish allows direct print, so it's easy to use.
- Perfect for any indoor application where bright, eye-catching, text-based signs are required.

1 Compatible with HP designjet printers as noted in this guide as well as EnCad NovaJet 700 and 500

2 Compatible with HP designjet printers as noted in this guide as well as EnCad NovaJet 700 and 500, EnCad Pro 600E, Epson 7000, 9000 and 9000 and Colorspan

3 For designjet 2800cp and 3800cp printers, compatible at full speed in Productivity and Photo-quality print modes

4 Compatible with HP designjet printers as noted in this guide as well as EnCad NovaJet 700 and 500; EnCad Pro 600E; Epson 7000, 9000, 9500 and 10000; Colorspan DMXII; and Mutoh RJ 6000

HP technical paper

HP technical papers are an economical choice that includes translucent bond, heavyweight paper, vellum and natural tracing paper.

Target market

Ideal for the everyday needs of graphics and technical professionals in architecture, CAD drawings and GIS.

Key selling points

- Tested and designed to produce high-resolution presentation graphics and long-lasting crisp black and color line drawings.
- Compatible with genuine HP ink supplies.

HP Special Inkjet Paper

Applications: Posters and Presentations, Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Perfect for presentation-quality images.
- Improved bright-white and sharp, vivid colors for presentation-quality images.
- Compatible with HP Designjet 650c printers only.

HP Heavyweight Inkjet Paper

Applications: Posters and Presentations, Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Nearly 50 percent heavier than HP Special inkjet paper.
- Perfect for durable, presentation-quality images.
- Compatible with HP Designjet 650c printers only.

HP Natural Tracing Paper

Applications: Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Clear black and color lines, plus dense black areas for excellent reproductions.
- Archivable.

HP Translucent Bond Paper

Applications: Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Recyclable.
- Exceptionally dense blacks, ideal for Diazo and Xerographic prints.

HP Vellum Paper

Applications: Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Exceptionally durable, archival quality.
- Recyclable.

HP film (technical and graphic)

HP film provides durable, high-quality images on multiple overlays, erasable, polyester, high-gloss, matte, clear or transparent film.

Target market

Ideal alternative to photo papers for technical and graphics professionals.

Key selling points

- Bright, vivid colors and sharp image quality.
- Compatible with genuine HP ink supplies.

HP Clear Film

Applications: Trade Show and Event Displays, POP and Retail Displays, Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Excellent bleed control for sharp images.
- Excellent ink adhesion prevents ink transfer between overlays.

HP High-Gloss White Film

Applications: Trade Show and Event Displays, POP and Retail Displays, Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Designed to work with HP Designjet cp Series, 755cm, 750c, 750c Plus, 488ca, 455ca, 450c and 350c printers.
- Bright-white and smooth finish for vivid colors.

HP Polyester Film Opaque White Glossy¹

Applications: Trade Show and Event Displays, POP and Retail Displays, Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Durable, top-quality media with a super-gloss finish for all your high-quality, large-format needs.
- Unique fast-drying formulation plus superior dot control yields brilliant colors with the widest color gamut.
- Compatible with HP designjet dye ink supplies only.

HP Matte Film (replaces HP Double-Matte Erasable Film)

Applications: Trade Show and Event Displays, POP and Retail Displays, Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Perfect for original color and high-volume reproducible drawings.
- Maximum black density for excellent solid areas.

HP Polyester Film White Matte¹

Applications: Trade Show and Event Displays, POP and Retail Displays, Geographic Information Systems (GIS), Architecture (AEC) and Engineering (CAD)

- Waterproof inkjet coating makes this well-suited for indoor and short-term outdoor applications.
- Polyester provides extremely high tensile strength; dimensional stability makes this matte film exceptionally durable and extends the life of the printed images.
- Compatible with HP designjet dye ink supplies only.

¹ Compatible with HP designjet printers as noted in this guide as well as EnCad NovaJet 700, EnCad Pro 600E and Epson 10000. HP Polyester Film Opaque White Glossy is also compatible with Colorscape DMXII, is not waterproof and is not compatible with HP UV ink supplies.

HP photographic paper

HP photographic papers deliver bold, full-color photo-quality prints from a wide variety of basic universal and premium photo papers that include high-gloss, semi-gloss, matte, durable image gloss UV and productivity instant dry.

Target market

For photographers and graphics professionals who produce indoor displays, high-impact color presentations, point-of-purchase signage, posters, proofs, photo reproductions and photo-quality enlargements.

Key selling points

- High-gloss, satin, matte or instant dry finish papers that produce brilliant images that look, feel and perform like professional prints.
- Compatible with genuine HP ink supplies.

HP Basic/Universal High-Gloss Photo Paper¹

Applications: Trade Show and Event Displays, Posters and Presentations, POP and Retail Displays, Photo Enlargements, Art Reproduction, Geographic Information Systems (GIS)

- Economical high-gloss photo paper.
- Ideal for promotional signs, posters, and displays.
- Universally compatible with HP designjet printers and non-HP large-format printers.

HP High-Gloss Photo Paper

Applications: Trade Show and Event Displays, Posters and Presentations, POP and Retail Displays, Photo Enlargements, Art Reproduction, Geographic Information Systems (GIS)

- Create vivid, show-stopping posters, displays and signs.
- Ultra-smooth glossy finish creates sharp, long-lasting images that look, feel and perform like professional photo prints.

HP Photo Imaging Gloss

Applications: Trade Show and Event Displays, Posters and Presentations, POP and Retail Displays, Photo Enlargements, Art Reproduction, Geographic Information Systems (GIS)

- Designed specifically for HP Designjet 5000 Series printers and HP 81 dye ink supplies to deliver the ultimate in photographic image quality.
- Exceptionally fast drying for short turn-around times and exceptional productivity in indoor applications.

HP Basic/Universal Photo Satin¹

Applications: Trade Show and Event Displays, Posters and Presentations, POP and Retail Displays, Photo Enlargements, Art Reproduction, Geographic Information Systems (GIS)

- Affordable photo paper with satin finish delivers professional-looking results.
- Reduces glare from indoor lights.
- Universally compatible with HP designjet printers and non-HP large-format printers.

HP Photo Imaging Satin

Applications: Trade Show and Event Displays, Posters and Presentations, POP and Retail Displays, Photo Enlargements, Art Reproduction, Geographic Information Systems (GIS)

- Designed specifically for HP Designjet 5000 Series printers and HP 81 dye ink supplies to deliver ultimate low-glare, photo-quality images.
- High-speed, low-glare printing material that captures maximum color, depth, sharp lines and intricate image details.

HP Productivity Photo Gloss and Semi-Gloss

Applications: Trade Show and Event Displays, Posters and Presentations, POP and Retail Displays, Photo Enlargements, Art Reproduction, Geographic Information Systems (GIS)

- Instant dry and lamination time.
- Improves workflow time while offering great photographic paper image quality.
- Compatible with most HP designjet and non-HP large-format printers.

HP Semi-Gloss Photo Paper

Applications: Trade Show and Event Displays, Posters and Presentations, POP and Retail Displays, Photo Enlargements, Art Reproduction, Geographic Information Systems (GIS)

- Exceptional bleed control for sharp, vivid output.
- Excellent indoor lightfastness means long-lasting images.

HP photographic paper (cont.)

HP Photo Paper RC Matte²

Applications: Trade Show and Event Displays, Posters and Presentations, POP and Retail Displays, Photo Enlargements, Art Reproduction, Geographic Information Systems (GIS)

- High-quality asymmetrically coated, white opaque photographic paper with a matte coating on the back side.
- High-contrast, photo-realistic image reproduction in brilliant, true colors with excellent edge definition and soft gradients.

HP Durable Image Gloss UV

Applications: Trade Show and Event Displays, Posters and Presentations, POP and Retail Displays, Photo Enlargements, Art Reproduction, Geographic Information Systems (GIS)

- Fade-resistant photo paper without lamination.
- Use with HP designjet UV ink supplies only.
- Designed specifically for HP Designjet 5000 UV printers.

¹ Compatible with HP designjet printers as noted in this guide as well as EnCad NovaJet 700 and 500; EnCad Pro 600; Epson 7000, 9000 and 10000; and Colorspan

² HP Photo Paper RC Matte is not waterproof and is not compatible with designjet printers as noted in this guide as well as Epson 9000 and 9500 and Mutoh RJ 6000

HP proofing paper

HP proofing papers are designed to maximize efficiency in an economical way. HP offers a variety of proofing choices with gloss, semi-gloss, matte and satin finishes.

Target market

Ideal for professional graphic designers who need proofs that mimic the appearance of professional offset printing.

Key selling points

- High-quality, color-accurate proofs.
- Compatible with genuine HP ink supplies.

HP Proofing Paper Gloss

Applications: Trade Show and Event Displays, Posters and Presentations, POP and Retail Displays, Photo Enlargements, Proofing, Art Reproduction, Geographic Information Systems (GIS)

- HP Proofing Gloss creates color-accurate premium presentations—the glossy, white finish makes this photo-based paper a favorite with graphic designers who want presentations with the highest image quality.

HP Proofing Paper Semi-Gloss

Applications: Trade Show and Event Displays, Posters and Presentations, POP and Retail Displays, Photo Enlargements, Proofing, Art Reproduction, Geographic Information Systems (GIS)

- HP Proofing Semi-Gloss creates color-accurate proofs with the look and feel of offset media—a semi-gloss look, with an offset's white finish, makes this paper a favorite with graphic designers and concept proofers who want color proofs with the highest image quality.

HP Proofing Paper Matte

Applications: Trade Show and Event Displays, Posters and Presentations, POP and Retail Displays, Photo Enlargements, Proofing, Art Reproduction, Geographic Information Systems (GIS)

- HP Proofing Matte produces color-accurate prints—this white, matte-finish paper is ideal for graphic designers who want to provide accurate offset emulations.

HP Proofing Paper RC Satin¹

Applications: Trade Show and Event Displays, Posters and Presentations, POP and Retail Displays, Photo Enlargements, Proofing, Art Reproduction, Geographic Information Systems (GIS)

- Premium-quality photo-base proofing paper that's 8-mil thick with a matte backside.
- White opaque for high-contrast image reproduction in brilliant, true colors.

¹ HP Proofing Paper RC Satin is not waterproof and is not compatible with pigmented inks

HP backlit material

HP's backlit materials deliver quality and flexibility with deep black and brilliant colors.

Target market

Ideal for professional graphic designers who produce backlit, retail, trade show and event displays and more.

Key selling points

- Translucent photo-quality vibrant images.
- Compatible with genuine HP ink supplies.

HP Backlit Film Reverse Print Matte¹

Applications: Trade Show and Event Displays, Backlit Displays, POP and Retail Displays, Photo Enlargements, Geographic Information Systems (GIS)

- A 5-mil polyester film that offers a matte finish on one side and a glossy finish on the other for extra versatility.
- Unique ultra-white diffusing layer enables reverse or direct printing for either a glossy or matte finish.
- Compatible with HP designjet UV ink supplies only.

HP Colorlucent Backlit UV

Applications: Trade Show and Event Displays, Backlit Displays, POP and Retail Displays, Photo Enlargements, Geographic Information Systems (GIS)

- Produces sharp, photo-quality backlit graphics for indoor or outdoor lightbox displays.
- Durable, translucent front-print film creates long-lasting, economical, Duratrans²-like images.
- Compatible with HP designjet UV ink supplies only.

¹ HP Backlit Reverse Print Matte is not water-resistant or waterproof and is compatible with HP designjet dye ink supplies only

² Duratrans is a registered trademark of the Eastman Kodak Company

HP self-adhesive material and laminate

HP offers a wide variety of self-adhesive products including coated paper, vinyl, polypropylene and polyester film.

Target market

Ideal for professional graphic designers who produce window displays, trade show and event displays and banners.

Key selling points

- For lasting, durable outdoor and indoor images.
- Compatible with genuine HP ink supplies.

HP Two-View Cling

Applications: Trade Show and Event Displays, POP and Retail Displays

- Reverse-print, translucent, repositionable matte film is ideal for brilliant point-of-sale banners and signage.
- Signage can be viewed from both sides, making it ideal for windows.
- Compatible with HP designjet UV ink supplies only.

HP Indoor Paper Self-Adhesive¹

Applications: Posters and Presentations, POP and Retail Displays, Banners

- High-quality paper with permanent, self-adhesive backing for projects that need to be mounted.
- White opacity and superior coating deliver brilliant inkjet colors.

HP Polypropylene Matte-Adhesive Backed²

Applications: Posters and Presentations, POP and Retail Displays, Banners

- Durable matte film produces brilliant hanging banners and fixed signage for indoor or outdoor applications.
- Special ink-receptive coating creates impressive brilliant, water-resistant images with an integrated adhesive.

HP Colorfast Adhesive Vinyl

Applications: Posters and Presentations, POP and Retail Displays, Banners

- Compatible with HP Designjet 5000, CP, 1050, 800 and 500 Series printers.
- Ideal for short-term indoor promotional and event signage.

3M Changeable Opaque Imaging Media³

Applications: Posters and Presentations, POP and Retail Displays, Banners

- Specially designed for use with HP Designjet 5000 and cp Series printers using designjet UV ink supplies only.
- 3M Matte Overlaminate and 3M Lustre Overlaminate provide outdoor durability to images printed on 3M Changeable Opaque Imaging Media.

¹ Compatible with HP designjet printers as noted in this guide as well as EnCad NovaJet 700, EnCad Pro 600E, Epson 10000 and Colorscape DMXII

² Compatible with HP designjet printers as noted in this guide as well as Epson 9000 and 9500 and Mutoh RJ 6000

³ 3M Matte Overlaminate and 3M Lustre Overlaminate are non-printable material

New!

HP banner and sign material

HP banner and sign material drape well, are tear and water resistant, and provide photo-quality indoor and durable outdoor banners in a variety of materials such as Scrim, Tyvek®, polypropylene and more.

Target market

Ideal for professional graphic designers who produce banners and signs, trade show and event displays, photo enlargements and more.

Key selling points

- Vivid, weather-resistant outdoor banners and eye-catching indoor images.
- Compatible with genuine HP ink supplies.

HP Polypropylene, Matte¹

Applications: Trade Show and Event Displays, Posters and Presentations, POP and Retail Displays, Photo Enlargements, Banners

- Durable matte film produces brilliant hanging banners and signage for indoor or outdoor applications.
- Fast drying time and excellent handling characteristics.

HP Banners with Tyvek®

Applications: Trade Show and Event Displays, Banners

- Designed to work with HP Designjet 2000cp, 3000cp, 1000, 800, 500 Series printers and the 5000/5500 UV printers.
- Waterfast and lightfast for up to three months outdoors without lamination using designjet UV ink supplies.

HP Opaque Scrim¹

Applications: Trade Show and Event Displays, Banners

- Create brilliant, highly durable outdoor or indoor signage for retail, trade-show, advertising, or point-of-purchase applications.
- Tear-resistant, matte-opaque, PVC polyester banner material is embedded between two white vinyl layers for added strength and opacity for reduced show-through.

HP Durable Scrim Banner

Applications: Trade Show and Event Displays, Banners

- Easy-to-use banner that is drapable, stretchable, punchable, accepts laminates, rugged and economical.
- High tear resistance, indoor, outdoor, UV Ink and water-resistant.

HP Outdoor Paper²

Applications: Posters and Presentations, POP and Retail Displays, Banners, Geographic Information Systems (GIS)

- Premium-quality white, opaque, water-resistant paper for short-term outdoor applications.
- Exceptional inkjet coating means it's not only water-resistant with designjet UV ink supplies, but tear-resistant too—even when wet.

HP Outdoor Billboard Paper Blue Back¹

Applications: Posters and Presentations, POP and Retail Displays, Banners, Geographic Information Systems (GIS)

- A white, blue-back, water-resistant billboard paper with high opacity for outside application.
- Blue-backed for reduced show-through of over-pasted posters.

¹ Compatible with HP designjet printers as noted in this guide as well as Epson 9000 and 9500 and Mutoh RJ 6000

HP fabric/textile material

HP offers a wide range of fabrics and textiles that drape well, are tear resistant, and come in materials such as cotton matte, polyester, viscose and satin.

Target market

Ideal for professional graphic designers who produce retail displays, trade show and event displays or for those using fabric manufacturing mockups for apparel and home furnishings.

Key selling points

- Colorful, high-quality output.
- Compatible with genuine HP ink supplies.

HP Paper-Backed Fabric Viscose¹

Applications: Textiles (Fabric Printing), Banners

- Create brilliant, durable, textile hanging banners, and signage for indoor or outdoor applications.
- Rip-resistant, 100 percent polyester construction for impressive durability.

HP Fabric Cotton Matte²

Applications: Textiles (Fabric Printing), Banners

- 100 percent cotton, paper-backed surface that is matte printable with HP designjet dye- and UV-pigmented ink supplies.
- For soft sign, textile, and banner applications where excellent drapability is required.

HP Paper-Backed Fabric Polyester²

Applications: Textiles (Fabric Printing), Banners

- Durable 100 percent polyester fabric that can be printed and draped.
- Unique knitted fabric that is tear-proof and flame-retardant.

HP Paper-Backed Fabric Silk Satin²

Applications: Textiles (Fabric Printing), Banners

- 100 percent woven silk crepe-de-chine fabric for elegant indoor results.
- Images printed on this fabric are transparent on the back side (up to 90 percent).

¹ Compatible with HP designjet printers as noted in this guide as well as EnCad NovaJet 700 and 500; EnCad Pro 600E; Epson 7000; and Mutoh RJ 6000

² Compatible with HP designjet printers as noted in this guide as well as EnCad NovaJet 700 and 500; EnCad Pro 600E; Epson 7000, 9000, 9500 and 10000; Colorscape DMXII; and Mutoh RJ 6000. HP Fabric Cotton Matte 190 gram is not water-resistant or waterproof

HP fine art printing material

HP fine art papers and canvas materials offer a broad range of color, texture, thickness, sheen and durability with media such as photo rag by Hahnemuhle, watercolor paper, embossed paper and a variety of canvas and fine art material.

Target market

Ideal for the art reproduction professional who produces fine art reproductions, artistic photographs, mural graphics, theatrical backdrops and more.

Key selling points

- Broad range of media choices.
- Compatible with genuine HP ink supplies.

HP Canvas Matte¹

Applications: Trade Show and Event Displays, Art Reproduction

- Woven stretchable canvas with a matte surface finish for professional full-color photographic printing.
- Special ink-receptive coating makes the media water-resistant and protects the surface from cracking.

HP Studio Canvas

Applications: Trade Show and Event Displays, Art Reproduction

- Designed to work with HP Designjet 5000, 2000cp¹, 3000cp¹, 1000 (C6771A only), 800 and 500 Series printers.
- Ideal for imaging the finest quality photo reproductions, fine art, maps and heavy-duty signage.

HP Canvas Paper²

Applications: Trade Show and Event Displays, Art Reproduction

- High-quality canvas paper with a matte finish and light yellowish-white color.
- Slightly structured, mould-made paper that is opaque and one-side coated.

HP Fine Art Paper Aquarella²

Application: Art Reproduction

- Beautifully colored, high-quality mould-made paper with a matte finish.
- Single-side coated and slightly structured.

HP Fine Art Paper, Cream²

Application: Art Reproduction

- Beautifully colored, high-quality, mould-made paper with a matte finish.
- Single-side coated, and slightly structured with color shades for flamboyant, full-color prints.

HP Fine Art Paper, Sahara²

Application: Art Reproduction

- Beautifully colored, high-quality, mould-made paper with a matte finish.
- Single-side coated, and slightly structured with color shades for flamboyant, full-color prints.

HP Watercolor Paper by Hahnemuhle

Application: Art Reproduction

- HP Watercolor Paper by Hahnemuhle is an acid-free, single-side coated media with 50 percent rag.
- The natural white finish with a soft textured matte surface makes this high-quality mould-made paper ideal for digital fine-art reproductions.

HP Photo Rag by Hahnemule

Application: Art Reproduction

- HP Photo Rag by Hahnemule is an acid-free, single-side coated media with 100 percent rag.
- This media shows a bright-white and smooth finish that is ideal for photo and digital fine-art reproductions.

¹ Compatible with HP Designjet printers as noted in this guide as well as Epson 9000 and 9500 and Mutoh RJ 6000

² Compatible with HP Designjet printers as noted in this guide as well as Epson 9000 and 9500 and Mutoh RJ 6000
Although HP Canvas Paper is compatible with HP Designjet UV ink supplies, it is not waterproof and not suitable for outdoor applications

HP LaserJet

HP LaserJet monochrome print cartridge technology

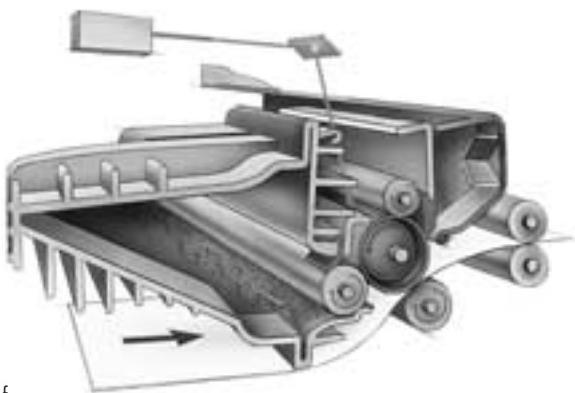

What's at the heart of HP LaserJet-quality output?

Innovative design, brilliant engineering, and one very important piece: the HP LaserJet print cartridge. That's right. It's HP's LaserJet print cartridge that brings ideas to life on the page with crisp clarity—the first time, every time.

Make no mistake about it. What your customers put inside their HP LaserJet printers truly affects what comes out.

The reason is that HP LaserJet print cartridges contain more than just toner. They contain about 70 percent of the printer imaging system. For comparison, think of replacing a cartridge as being similar to putting a brand-new motor in your car—only the cartridge is a lot easier to install.

Because print cartridges are the central piece of HP LaserJet technology, HP takes them very seriously. Every HP LaserJet cartridge is specially designed and custom-engineered to work flawlessly with its HP LaserJet printer to provide clear, sharp output over the life of the cartridge.

HP LaserJet print cartridges contain more than just toner. They contain about 70 percent of the printer imaging system.

HP LaserJet Smart Printing Technology

The intelligent system for carefree printing

HP Smart Printing Technology featuring the new HP Smart Print Supplies System is the latest technological innovation in printing supplies. HP Smart Printing Technology is activated every time you install a HP LaserJet Smart Print cartridge in your HP LaserJet printer. Each Smart Print cartridge works with its designated HP printer and software to provide more accurate supplies monitoring, convenient supplies ordering, less printer interaction and print quality enhancements.

HP Smart print supplies features:

Supplies Monitoring: Real-time data on toner levels minimizes printer downtime.

- **Supplies alerts:** E-mail message notifies designated individuals that supply is low or out.
- **Gauges:** More accurately determines level of supply.
- **Print Job Assessment:** Provides estimation of pages remaining in the print cartridge so user can determine whether job can be completed.
- **Cartridge Usage Data:** Provides usage information for job accounting and budgeting needs.
- **Cartridge Installation Assurance:** Notifies user that cartridge is not installed properly or not genuine HP.

Supplies Ordering: Ensures the correct supply is available when and where you need it.

- **SureSupply Ordering:** E-mail alert notifies designated individual that supply is low or out. Part number of supply and Web access to place supply order via choice of resellers is provided.

Print Quality and Usability Enhancements: Ensures optimum output and HP reliability every time you print.

- **Shake-free Cartridge:** New mechanical design redistributes toner ensuring its full depletion.
- **Dynamic Electrophotographic Adjustments:** Drum sensitivity of the cartridge is adjusted by smart technology to ensure consistent print quality.
- **Automatic Seal Tab Removal:** The toner-sealing strip is automatically removed when the cartridge is installed.

HP Smart Printing Technology brings intelligence to HP printing supplies.

Using genuine HP supplies ensures availability of all HP printing features

HP LaserJet Ultraprecise print cartridge technology

HP LaserJet Ultraprecise—a breakthrough in LaserJet printing

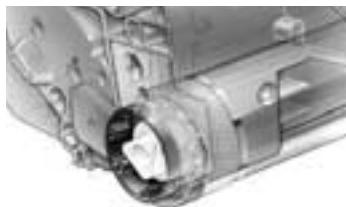

HP innovation doesn't stop at just printers—we're constantly setting new standards for the supplies and accessories our HP LaserJet printers use to produce output that is always clear, always sharp.

One of the significant HP technology advances is called Ultraprecise—a breakthrough in LaserJet printing that also adds up to a breakthrough in print quality and reliability.

Dual polymer toner

Finer dual polymer toner particles fuse at a lower temperature than other printers, resulting in more consistent output, smooth grayscales and fine details.

Helical roller drive mechanism

A helical drive mechanism creates a smooth fluid interface between the printer and print cartridge, eliminating banding and uneven gray areas. The result is optimum quality graphics.

Magnetic seal

A magnetic seal provides leakproof sealing over the entire life of your cartridge for added reliability and a cleaner work environment.

Finer OPC sensitivity

Improved sensitivity in the organic photoconductor (OPC) drums provides the clarity needed for 1,200-dpi halftone images and grayscales.

HP pull tab

Always look for the HP logo etched on the pull tabs of print cartridges to ensure you're using genuine HP.

HP tonergauge technology

HP offers an advanced technology consumables management tool called HP Tonergauge technology. It's designed to take the guesswork out of ordering supplies by letting you easily monitor toner usage. By using HP LaserJet Ultraprecise print cartridges in your HP printer, you are guaranteed the accuracy of the toner gauge, plus you get optimum output every time.

Spherical color toner

HP's chemically grown color toner particles are spherical in shape and extremely small, resulting in uniform color density, highly accurate placement and exceptional printing quality.

HP color LaserJet cartridge technology

HP's spherical color toners

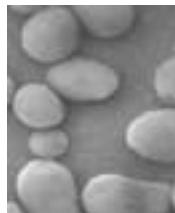

The HP Color LaserJet 1500, 2500, 4500, 4550, 4600, 5500, 8500, 8550 and 9500 Series printers set a new standard in color print quality for the business printing market. Each printer utilizes advanced ImageREt 2400 technology to deliver sharp colors that are more consistent and truer to the human eye.

What makes HP color toners so special?

To help achieve this breakthrough color print quality, HP uses chemically grown color toners. Most color toner is mechanically ground, which produces a faceted toner particle. HP's chemically grown color toners are spherical in shape, with highly consistent color from particle to particle. The particles are very small in size, allowing for very precise placement to create colors that are more accurate and consistent.

In addition, HP's color toners do not require the use of oil in the toner fusing process like many competitive color laser printers. The absence of oil makes these the first desktop or workgroup color printers to be able to offer an automatic duplex (two-sided) printing option—a feature many customers have asked for! And, of course, toners offer greater print permanence and archival durability over rival solid wax and inkjet technologies.

The end result of HP's advances in color technology is long-lasting output that features more colors; finer photographic details; better transitions between colors; and solid, smooth area fills—output that gets your customers noticed.

HP chemically-grown toner: spherical shapes for consistent color output.

Mechanically-ground toner: irregular shaped particles can affect consistent quality.

HP LaserJet printing supplies warranty information

The value of the HP LaserJet warranty

Millions of HP customers rely on consistent quality results, so commitment to excellence is our top priority. The HP warranty backs up our name.

Monochrome print cartridges

HP LaserJet print cartridges are warranted to be free from defects in materials and workmanship.

Color toner bottles and kits

HP LaserJet color toner bottles and kits for the HP Color LaserJet 5/5m are warranted to be free from defects in workmanship for 90 days from date of purchase.

New color cartridges and kits

HP color LaserJet cartridges are warranted to be free from defects in materials and workmanship. The HP LaserJet Drum Kit is warranted to be free from defects in materials and workmanship until the "low-life" message appears. The HP LaserJet Fuser and Transfer Kit are warranted to be free from defects in materials and workmanship for one year or until the "low-life" message appears, whichever comes first.

Not covered

Warranty does not cover cartridges that have been refilled, are emptied, are abused, are missing or are tampered with in any way.

Using non-HP LaserJet print cartridges

If a non-HP print cartridge is found to be the direct cause of printer failure or damage, HP will not cover the repair related to that non-HP cartridge.

Returning HP product

In the event the cartridge proves defective, the customer should return cartridge to place of purchase, where a replacement will be given. Customers should provide name, address, phone number and a brief description of the problem.

Note: See product box for more warranty details.

Packaging Date: HP has removed the date previously printed on all of its new HP LaserJet cartridge packaging. The date was a tracking number, and had no correlation to the use or warranty of the HP LaserJet cartridge.

HP Planet Partners Program

Helping the environment is free and easy with the HP Planet Partners printing supplies return and recycling program.

HP's recycling program was created to provide an efficient way to recycle our print cartridges and other printing supplies in an environmentally responsible manner. It's free—and easy—to participate. Just follow these simple steps:

For returns

- LaserJet Cartridge Recycling Program—Use prepaid, pre-addressed UPS label and Recycle Guide enclosed in each print cartridge box.
- Inkjet Cartridge Recycling Program—Request a prepaid, pre-addressed UPS Recycle Guide (envelope/box) by calling 1-800-340-2445. Or visit our Web site at www.hp.com/recycle.
- Give your package to UPS—shipping is free.
- Call the HP Recycling Center at 1-800-340-2445 for details on bulk returns (8- or 180-piece boxes).

News about the programs

- HP's LaserJet program has a worldwide recycling total of 120 million pounds and has been offered since 1991.
- HP's Inkjet program has a worldwide yearly recycling total of 3 million pounds and has been offered since 1998.
- HP recycles almost the entire print cartridge and recycles the box and packaging materials.
- HP converts the materials in used print cartridges into the raw materials used to make everyday products, such as buttons, eyeglass cases and tractor parts.

For more information about the HP Planet Partners Program, please call 1-800-340-2445. Or visit our Web site at www.hp.com/recycle.

For residents of Alaska and Hawaii:

Do not use UPS label. Please call 1-800-340-2445 for information and instructions.

HP LaserJet fraud

Avoid toner fraud

It has been said that imitation is the sincerest form of flattery. But it can also be a crime! Some dishonest individuals have attempted to sell used, refilled, remanufactured or non-original cartridges as new, genuine HP print cartridges. Often these cartridges come in an HP look-alike box and packaging.

HP resellers can be affected in two ways:

- Sales can be lost when customers believe that they are buying HP LaserJet print cartridges at a lower price than offered by the reseller. When you come across these situations, the HP sales representative should be notified.
- Resellers can be tempted to purchase this lower-price product and offer it to their customers. This is risky because not only can their customers experience quality problems, but the reseller could be caught in possession of a counterfeit product.

Use caution when offers include any of the following elements:

- Better price than from HP distributors.
- Other part numbers are not available.
- Requires cash on delivery.
- Includes story of fire sale, auction, or similar acquisition.
- Product that has been reboxed for some reason.

And product appearance:

- Has no HP logo.
- Has HP logo but price, etc. are questionable.
- Is not wrapped as usual, on usual pallets.
- Is not in subpacks as from HP.

What to do:

- Ask for written quote via fax.
- Make sure they say it's HP, not just infer that it is.
- Ask what other products are available.
- Ask to call them back.
- Ask to examine the product.
- Call your HP sales rep or HP at 1-877-219-3183.

What HP will do:

- Examine the product.
- Validate or invalidate the offer.
- Investigate fraudulent product.
- Take legal action.

Anti-counterfeit packaging

All new HP Invent LaserJet cartridge packaging now includes the following anti-counterfeit features:

- Tear-pull strip on top of box.
- Permanently glued bottom of box.
- Toner security seal that signifies to customer genuine HP. Two ways to check that seal is authentic:
 - Logo changes from green to blue; glossy appearance and sparkles when viewed from some angles.
 - Heat-sensitive stripe runs horizontally across toner security seal. If you rub your finger vigorously across stripe, the ink fades and the message "HP invent" can be seen underneath.

New!

HP LaserJet Q2610A Smart print cartridges, new 10A Dual Pack

HP Smart print cartridges are designed to work precisely with HP LaserJet 2300 Series printers for professional print quality, consistent performance and ease-of-use.

Target market

Small businesses, small workgroups and personal businesses who want professional-quality output.

Key selling points

- Designed together to work together with HP LaserJet 2300 Series printers for optimum output and reliability.
- Innovative toner formulation for crisp, sharp output every time.
- Designed to meet business printing demands and deliver professional results.
- Easy to use and maintain with new print cartridge architecture and smart printing technology.
- HP printing solution for cost-effective use.
- New dual pack of HP LaserJet Q2610A Smart print cartridges—excellent value for higher volume printing needs.

HP Color LaserJet 5500 Smart printing supplies

New advanced toner formulation and smart printing technology.

Target market

Small to large businesses with wide-format monochrome and color printing needs.

Key selling points

- Designed to work precisely with HP Color LaserJet 5500 Series printers for reliable performance and consistently great results.
- Advanced toner formulation for crisp, sharp output every time.
- Easy to use and maintain with new print cartridge architecture and smart printing technology.
- Cost-effective color solution for everyday use.
- Smart Printing Technology enables supplies status and usage information, SureSupply ordering, shake-free cartridge, dynamic EP adjustments and cartridge installation assurance
- HP Color LaserJet 5500 Series also uses the following long-life consumables: transfer kit (C9734A, 120,000 page yield) and one of two fusers (C9735A, 110-volt, 150,000 page yield or C9736A, 220-volt, 150,000 page yield). Kits are managed by printer team.

HP Color LaserJet 4600 Smart printing supplies

Designed for outstanding results with the HP Color LaserJet 4600 Series printers.

Target market

Small to large businesses with monochrome and color printing needs.

Key selling points

- Designed to work together with HP LaserJet 4600 Series printers as a printing system.
- Second-generation spherical toner that ensures accurate, consistent results.
- Improved pigments and gloss properties of the toner result in a wider color gamut and sharper color appearance.
- Smart Printing Technology enables supplies status and usage information, SureSupply ordering, shake-free cartridge, dynamic EP adjustments and cartridge installation assurance.
- Additional graphical gauges on the control panel work with the print cartridge to further inform users when HP supplies are low or out.
- Print cartridges are easy to install via front-panel access.
- HP Color LaserJet 4600 Series also uses long-life consumables: transfer kit (C9742A, 120,000 page yield) and one of two fuser kits (C9725A, 110-volt, 150,000 page yield or C9726A, 220-volt, 150,000 page yield). Kits are managed by printer team.

HP Everyday papers

A full range of professional-quality paper designed for the way you work.

Target market

Homes to small offices to large corporations that need professional-quality printouts from their HP LaserJet printers and other office equipment.

Key selling points

- Compatible with all LaserJet printers.
- Designed to work with HP LaserJet printers, copiers, fax machines and other office equipment for clear, sharp, professional results every time.

HP Office Paper

- Paper that is guaranteed to run in all HP office equipment with consistent quality from sheet to sheet.
- Reduces dust build-up in equipment.

HP Office Quickpack

- Paper for use in everyday office environments packaged in a convenient 2,500-sheet lightweight carton.
- No ream wrap, no waste, no loose sheets.

HP Office Recycled Paper

- Environmentally responsible, high-volume paper for everyday documents.
- All of the features of HP Office Paper in a recycled sheet of 30 percent post-consumer content, which meets all U.S. government standards.

HP Business Copy Paper

- MBE paper solution from HP and South Coast Paper that is designed to run in all office equipment.
- Ideal for printers, copiers and fax machines.

HP Everyday Copy & Print Paper

- A versatile copy/print paper designed to work with HP printers, copiers, fax machines and other office equipment.
- Ideal for home office use at an affordable price.

HP Multipurpose Paper

- For top quality output from HP printers as well as copiers and fax machines.
- Brighter than other office papers with a smooth surface for sharper documents.

HP Printing Paper

- Heavier than copy paper, made for use in HP inkjet and LaserJet printers.
- Ideal paper for everyday office documents and presentations.

HP All-In-One Printing Paper

- The one paper engineered exclusively for use in HP inkjet and LaserJet all-in-one machines.
- Ideal paper for crisp, clean professional looking copies and documents.

HP LaserJet Paper

- Ideal for documents that combine text with spot color.
- The standard paper for LaserJet printers.

HP Color Laser Paper

- Engineered for HP's new generation of color laser printers.
- Super smooth for sharp image definition.

HP Premium Choice LaserJet Paper

- HP's heaviest and brightest text laser paper for use in HP color LaserJet printers and color copiers.
- Ideal for high quality color presentations and documents.

HP LaserJet tough paper

Durable paper that won't rip, tear or be ruined by the elements.

Target market

Business and home users who need a durable, long-lasting paper solution.

Key selling points

- Waterproof and tear-proof, this paper is virtually indestructible.
- Ideal for signage, maps, menus, manuals and other applications where durability and weather resistance are key.
- Retains rich, vibrant print color and clarity when exposed to the weather.
- Two-sided satin finish enables duplexing.
- 5-mil thickness.
- Designed to work together with HP color and monochrome LaserJet printers for optimum output and reliability.

HP LaserJet transparencies

Bright, crisp, and sharp results for professional presentations.

Target market

Business users who need transparent, professional-quality laser output for overheads and presentations.

Key selling points

- HP color LaserJet transparencies are easy to read and have smudge-resistant output.
- HP LaserJet monochrome transparencies have high-contrast, true blacks for clear, sharp presentations.

HP LaserJet Monochrome Transparencies

- Custom-designed for your monochrome HP LaserJet printer.
- Heat-resistant to eliminate waves and ripples.

HP Color LaserJet Transparencies

- Two-sided coating for thick, durable, smudge-resistant printouts every time.
- Custom-engineered for use on all HP color LaserJet printers.

HP cover paper

Super-smooth, cover-weight laser paper for superior color output.

Target market

General office, creative power users and professional creatives who need a high-quality, heavy media stock for special business documents.

Key selling points

- HP's heaviest laser paper—75-pound cover weight.
- 96 brightness for high-impact documents.
- Optimized for color laser printing.
- Designed for duplex printing performance and reliability.
- Designed to work together with HP color and monochrome LaserJet printers for optimum output and reliability.

¹ Compatible with the Color LaserJet 1500 and 2500 when printing monochrome documents

HP Information Storage

HP Ultrium data cartridges

Large-capacity data storage with superior performance and reliability for high-volume companies with up to 400 GB¹ capacities.

Target market

MIS Managers with complex, data-intensive networks that require high reliability performance and capacity in data storage.

Key selling points

- HP is the market share leader in Ultrium drives and media and co-developer of Linear Tape Open (LTO) format.
- Designed in conjunction with HP Ultrium drives to ensure tool compatibility and reliability.
- Provides the highest level of quality through comprehensive testing and qualification processes.
- Color-coded to prevent loading the wrong media into the wrong drive.
- Four-generation road map leading to 1.6 TB in 2006.
- Fully compatible with all Ultrium-certified tape drives.
- HP limited lifetime warranty.

¹ Assuming 2:1 data compression

HP Ultrium bar code labeling

Convenient labeling solutions for managing cartridges during large back-up activities.

Target market

HP Ultrium Drive and Library users who want to automatically manage cartridges during large data back-up activities.

Key selling points

Bar Code Label Pack

- Rigorously tested by HP for accuracy and compatibility using HP Ultrium cartridges and HP Ultrium libraries and autoloaders.
- Easy to use—saving valuable time.
- HP Ultrium bar code labels include a generic label sequence that requires minimal specifications by the user in a remote site. No two packs are ever the same.
- HP Ultrium bar code labels are conveniently packaged in 100-label quantities. Each 100-pack contains 100 data and 10 cleaning cartridge labels.
- Widely available from the same outlets and suppliers as HP Ultrium media.

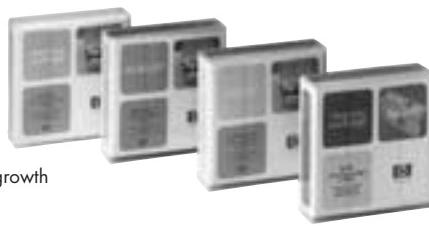

Pre-labeled Data Cartridge

- Customized: Define your own unique sequencing for total data management.
- Reliable: Fully tested media and labels for demanding automation environments.
- Quality: HP bar code labels are precisely applied in a secure, clean environment and packed in tamper proof cartons.
- Safe: Labels won't come off unless you want them to.
- Easy to use: Just open the box and load up the library.

HP DLT data cartridges

Superior performance and capacity for high-performance servers.

Target market

For customers with high-end servers and many database applications servers who are experiencing high-capacity growth and constraints on backup windows.

Key selling points

- Stores up to 80 GB (compressed capacity) on one cartridge.
- Rigorously tested for optimal reliability and data integrity.
- Proven performance for up to one million read/write passes.
- 30-year archival life.
- HP DLT hardware and media complement one another to create an exceptionally reliable backup solution.
- Using HP media with HP drives ensures a complete solution fully supported by HP.
- HP limited lifetime warranty.
- The DLT1/DLT VS Cleaning Cartridge actually prolongs the life of your DLT1 and DLT VS Drives.¹

¹ HP DLT1/DLT VS Cleaning Cartridge is intended for use in HP and other manufacturers' DLT1 and DLT VS Drives only

HP AIT data cartridges

Ideal for departmental and workgroup backups where capacity, performance and cost are critical.

Target market

Low- to mid-range automation customers seeking high capacity, faster transfer rates and lower cost of ownership.

Key selling points

- High performance: Enables fast data access with MIC technology.
- Comprehensive: HP offers a complete AIT family of products.
- High capacity: Supports capacities from 70 GB to 200 GB.
- Dependable: Fault-tolerant system logs ensure greater data integrity.
- Longevity: Long lifecycles for high-density recording.
- Five-year HP warranty.

HP DDS data cartridges

High-performance, reliable backup at a great value.

Target market

IT professionals or purchasing managers responsible for buying supplies who need reliable backup for mid-range servers.

Key selling points

- Using HP media with HP drives ensures optimal performance and compatibility, and a complete solution fully supported by HP.

- HP limited lifetime warranty.

HP DAT Data Cartridge

- Supports the latest DAT 72 tape drive, next-generation DDS technology.
- Increases capacity with 36 GB native storage on a single DDS format cartridge.
- Lowers the cost of ownership for small and medium-size businesses compared to AIT and DLT VS with superior cost per GB.
- Reinforced by HP's unique media testing and qualification process for maximum reliability in backup and restore.

HP DDS Data Cartridge

- Blue cartridge shell for ease of identification in mixed media archives.
- Electronically tested to withstand a minimum of 2,000 passes or 100 full backups.
- HP standard for durability is double the industry standard for maximum reliability, minimum risk.
- Ten-year archival life.

¹ Assuming 2:1 data compression

HP Travan data cartridges

Affordable, full system protection for laptops, desktop PCs and small network back-up systems.

Target market

Small business users of HP Travan or other manufacturers' Travan drives to back up either a portable laptop computer, standalone PC or small network.

Key selling points

- Rigorous testing ensures cartridge can be used and reused up to 10,000 times.
- Pre-formatted cartridges with a five-year HP limited warranty.
- Affordable and easy to use.
- Proprietary HP Media Monitor feature monitors individual tape usage.¹

¹ Available only when used in HP 14-GB and 20-GB Travan drives

HP Magneto-Optical disks

100-year archival life for large amounts of online storage.

Target market

Businesses that require archiving large data and image files for long periods of time with fast online retrieval.

Key selling points

- HP's patented robotics technology ensures that the total optical solution—drives, library and media—will be one of exceptional reliability and durability.
- 100-year archival life.
- Anti-static shell coating prevents static buildup which can cause read/write errors.
- Surpasses ISO, IEC and ANSI standards and CC formatted.
- Comes in rewritable and write-once formats.
- Using HP media with HP drives ensures a complete solution fully supported by HP.
- HP is the market leader in optical jukebox shipments.
- HP limited lifetime warranty.

HP DVD+R and DVD+RW discs

Quickly store, backup and transport large multimedia or other files in a safe, compatible format.

Target market

Home and business users who need the ultimate, high-performance DVD+R and DVD+RW media solution.

Key selling points

- HP DVD+R and DVD+RW discs offer compatibility with most DVD-ROM drives and DVD players for easy sharing, plus random access to video scenes and clips. Tested to extremes, HP media is a safe investment for safe returns.
- High capacity—HP's advanced and highly compatible DVD+R and DVD+RW discs store up to 4.7 GB of data, up to 133 minutes of high-quality video, up to 3 hours of VHS quality video, thousands of photos and hundreds of MP3 music files.¹
- High performance—HP DVD+R and DVD+RW discs can handle a write speed of up to 2.4x on compatible drives.
- With these high-capacity, high-performance disc offerings, users can easily share, store, backup and rewrite large multimedia and data files.
- HP DVD+R media is perfect for home or business users wanting a low-cost alternative to archive data or video memories with confidence. Its write-once capability provides protection from accidental erasure or deletion.
- HP DVD+RW discs are ideal for home or business users wanting the flexibility to save and rewrite video to DVD+RW discs.

¹ Specific capacity depends on resolutions, quality and file sizes of photos, videos, music and data. Intended only for creation and storage of original material and other lawful uses

Travan 20 GB Data Cartridge, TR-5	C4435A	20 GB											X						

X Recommended media (optimum speed/capacity)

O Compatible only media

R Read compatible only media

¹ All capacity and transfer rates quoted as typical use a 2:1 compression ratio; this may vary since compression is data dependent

² Drive dependent. Ultrium1 drives are 15 to 50 cleans depending on the drive. Ultrium2 drives are all 50 cleans

³ Drive dependent. AIT-1 drives up to 70 cleans, AIT-2 & AIT-3 drives up to 50 cleans

⁴ Bar Code label packs come with 100 data labels and 10 cleaning labels

HP resource directory

Resource	Description	Details
FOR RESELLERS		
HP Partnership Website (Requires eligible HP outlet ID number, user name and password for access)	Online access to full business assistance, up-to-date product and program information, literature ordering and e-mail alerts.	http://hp.com/partners/us
Current price information	Online access to HP Pricing.	Select Prices.
Literature Ordering	Online access to HP Literature.	Select Products, General Product Information, Literature Ordering Link.
HP Printing and Digital Imaging Products Online IRG	Online access to printing and digital imaging product information via HP Partnership Web; view or print the latest product data.	Select Products, General Product Information, Product Reference Guide Website Links.
HP Printing and Digital Imaging Products IRG PDFs	Online access to the PDF files of this IRG via HP Partnership Web; download PDF files as a single file or by product section.	Select Products, General Product Information, Instant Reference Guides.
E-Mail alert news	Provides resellers with the latest product, program, promotion and training news from HP.	Select News to view messages. Select update your news profile to sign up.
HP Channel Support Center (Requires eligible HP outlet ID number for access)	For HP Authorized and Registered Resellers; pre- and post-sale technical support.	1-800-544-9976
HP Printing and Digital Imaging Products IRG	Reseller guide to HP printers; scanners; all-in-one, color copier and fax products; print servers and appliances; digital sender products; support products and supplies.	5981-9183ENUC
HP PC, Server, Storage and Networking IRG	Guide for HP PC, Server, UNIX Server and HP Storage and Networking Products.	5982-1305ENA1
FOR RESELLERS AND END-USER CUSTOMERS		
HP Home Page	Online access to HP's products, services and support.	www.hp.com
HP Printing Supplies Home Page	Online access to HP's supplies.	www.hp.com/go/printsupplies
HP Customer Care Website	Free, one-stop, online access to technical support for HP PC, printer and imaging products.	www.hp.com/cposupport/eschome.html
HP Parts Ordering	Place parts orders online, check order status.	www.partsdirect.hp.com
HP Partsurfer	Online access to HP service parts information.	http://partsurfer.hp.com
HP Subscriber's Choice	Free e-mail notification service for product and technical support alerts.	http://subscription.support.hp.com/hpss/Home
HP Care Pack Look-up Tool	Online access to HP Care Pack product numbers and pricing.	http://lookup.supportpack.hp.com
HP Printing and Digital Imaging Products Family Guide	At-a-glance overview provides resellers with product name, product number, photo and U.S. list prices for current HP printing and digital imaging products.	http://hp.com/partners/us Select Products, General Product Information, Product Reference Guide Website Links.
HP Printing and Digital Imaging Products Selection Guide (formerly HP at Work)	A monthly updated, high-level, solutions-based customer brochure. Positions HP printing and digital imaging products relative to needs within various environments.	http://hp.com/go/SelectionGuide
Third-Party Solutions	Find solutions that integrate with your HP printing or digital imaging products.	www.hpgsc.com
HP Product Accessibility	HP is committed to providing products and services that are accessible to people with disabilities.	www.hp.com/accessibility 1-888-259-5707
HP Financing	HP finance plans provide all the benefits of new technology without the risk or cost of ownership.	1-888-999-4783
FOR END-USER CUSTOMERS		
Customer Care Support Line	Provides assistance for printing and digital imaging products.	1-800-HPINVENT
Service Information Line	Automated 24-hour service-reseller referral system.	1-800-243-9816 (U.S.) 1-800-387-3867 (Canada)
